## Single Page Application Creative Portfolio plus Minimal Floating Blog

Thank you for buying **Singlepagefolio**! I have spent a very long time developing this theme and the related features. I've done my very best to make it as well-done and useful as possible, while also keeping it incredibly easy and fun to use. I've also worked hard to make it performant and unique while also keeping it on the standard of web requirements as much as possible.

I really hope you enjoy it!

**Singlepagefolio** is a fully responsive Wordpress theme, perfect to show your résumé and portfolio of works online.

It's a Single Page Application portfolio with a very original navigation, plus a minimal blog.

The portfolio application is perfect to introduce your creative work in a very unique way.

It can be used for a personal Vcard-Resume-CV or company Portfolio.

The blog is designed to detail the projects and to show your articles as well.

Introducing yourself or your company through this unique theme could set you apart from your competition.

### Featured:

- Very Easy to Use (import the demo data and you are ready);
