## Importing Demo Data

The importer will import all the pages, posts, custom posts, theme options, assign menus, etc. from the demo site for you to look through and modify as you require while building your website.

**NOTE: The importer will not import just the content, but all the things you need to avoid every advanced settings, so you can just use it.**

You can import all the demo content easily and quickly following the next steps:

1. Go to **Tools** ☐ **Import** and select "**WordPress**";

2. Pick sample data xml file / singlepagefolio-sample-content.xml in the theme package downloaded from ThemeForest and click **Upload file and import** ;

3. Set/choose the user to assign posts to then check **Download and import file attachments** and click **Submit**.

The screenshot shows the WordPress 'Tools' menu with 'Import' selected. The 'Assign Authors' section includes instructions on reassigning authors and a dropdown menu to 'assign posts to an existing user'. The 'Import Attachments' section has a checked checkbox for 'Download and import file attachments'. A 'Submit' button is at the bottom. The footer shows 'Thank you for creating with WordPress.' and 'Version 4.4.2'.

**Assign Authors**

To make it easier for you to edit and save the imported content, you may want to reassign the author of the imported item to an existing user of this site. For example, you may want to import all the entries as `admin`'s entries.

If a new user is created by WordPress, a new password will be randomly generated and the new user's role will be set as subscriber. Manually changing the new user's details will be necessary.

1. Import author: **default user (singlepagefolio-usr)**  
or create new user with login name:   
or assign posts to an existing user: **- Select -**

Thank you for creating with [WordPress](#). Version 4.4.2

NOTE: It could take a while, just because of the media import.  
The standard blog posts could lose some image associated from media library, but it's just standard content you are going to overwrite, so don't worry about it.
